

FIDO PET GRASS

Fido™ Pet Grass is specifically designed for man's best friend. This synthetic grass system provides green play areas year-round. Fido Pet Grass is perfect for backyards, dog parks, doggy daycares, and more. The knitting process creates a highly porous system ideal for draining pet waste from the system. The turf fibers are knotted together to create the strongest possible construction, allowing dogs to dig to their hearts' content.

TYPE Knitted pet grass
PILE WEIGHT 62 oz./sq. yd.
PILE HEIGHT 1.00"
FIBERS 100% Polyethylene
BLADE SHAPE 1 blade shape, 2 colors + secondary fiber

TURF FIBERS

All-polyethylene fibers repel moisture, unlike nylon. Shaped fibers help the blades stand upright longer.

KNITTED CONSTRUCTION

The knitting process ensures rapid drainage and incredible durability to withstand digging paws.

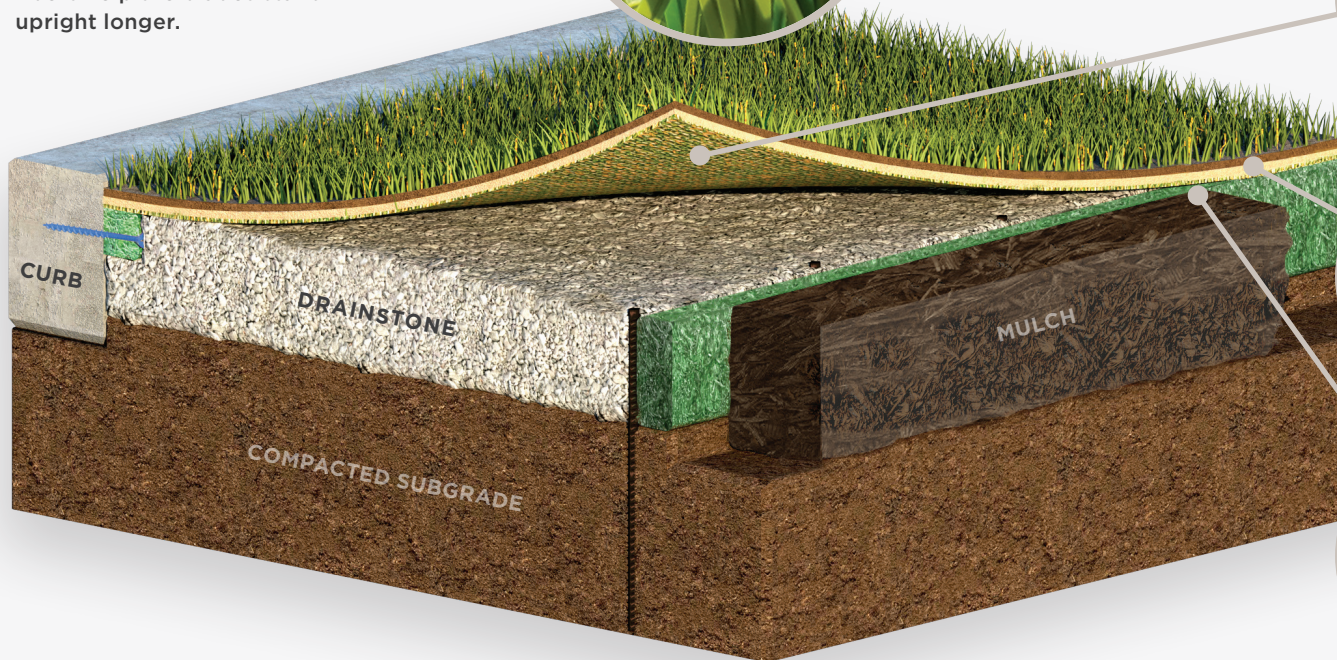

INFILL

Sand is spread into the turf system for ballast and stability. The USDA-Certified Organic GeoCoolFill® is recommended for installation as well to provide a natural, cool feel under your dog's paws.

ECONAILER™

The EcoNailer Board is made of 100% recycled materials (40% recycled turf fibers, 60% post-consumer recycled plastic). This resilient board secures the turf in place, preventing any movement.

CHARACTERISTICS

- 
 No mowing
- 
 No watering
- 
 No mud
- 
 No digging
- 
 Low maintenance
